Famous place in the Philippines

Boracay Island is one of the most popular places to the foreigners. Many people go there especially from March to April. This is the summer season in the Philippines. Boracay is a beach resort island. It's very wide and beautiful! You can see many coconut trees on the beach. Boracay is famous for marine sports. You can enjoy riding on the banana boat, parasailing, scuba diving and many more. You can see many beautiful fish in the sea. There are a lot of nice restaurants and gift shops. I recommend dried mangoes and banana chips. You will like them.

I like going to the beach in summer! Summer vacation is coming soon. Are you excited? Where do you want to go this summer?
